25X1A9a

25X1A

We have been requested by [redacted], Inspector at the [redacted] to write to you explaining why an approved coordinated layout of mechanical and electrical work has not been submitted.

25X1A5a1

One coordinated drawing was submitted but it did not meet requirements, so was returned to [redacted] Service and, even though we have repeatedly requested the re-submission of this, to date it has not been taken care of.

Yours very truly,
